ADDENDUM #5 Hackamore (Junior Horse)

leferences to Hackamore for use with Junior Horses means the use of a flexible, braided rawhider leather, or rope bosal, the core of which may be either leather or flexible, non-metal cable. Ibsolutely no rigid material will be permitted under the jaws, regardless of how padded or overed. Horse hair bosals are prohibited.

ollowing are examples of typical hackamores, all having bosals with rawhide inner cores of arious stiffnesses, with a finished diameter of 5/8 to 11/16 inch and are from 11 to 12 inches in lingth. Mecates are 5/8 inch in diameter and are either rope or horse hair.
