## PROJECT PLANNING

Your project will require regular effort on your part to be successful. Explain what you will do daily, weekly and/or monthly to accomplish your goals. Be as specific as possible.

Remember to consider the following:

- Check and repair equipment
- Practice shooting
- Take classes
- Set new targets for accuracy scores

What I do for my archery project ...

Daily	Weekly	Monthly

Why did you choose this Project?

What skills do you want to learn or improve on?

What goals do you want to accomplish with your project?

What other 4-H activities do you want to try? What are you most looking forward to?

## BUDGET - For Senior Members Only

A budget is important for planning. Budgets can help ensure that your expenditures are not greater than your available finances, or expected income, particularly if a loan is required.

Based in previous years in the project, and/or the advice of your leaders and parents, create a budget for this year. Additionally, you may want to think about:

1. Is the value of the learning worth a loss? Will it lead to a more balanced projection in the future?
2. Is there a way to decrease expenses?
3. Is there a way to generate more income?
