BUDGET - For Senior Members Only

A budget is important for planning. Budgets can help ensure that your expenditures are not greater than your available finances, or expected income, particularly if a loan is required.

Based in previous years in the project, and/or the advice of your leaders and parents, create a budget for this year. Additionally, you may want to think about:

1. Is the value of the learning worth a loss? Will it lead to a more balanced projection in the future?
2. Is there a way to decrease expenses?
3. Is there a way to generate more income?
